

Program: Coding

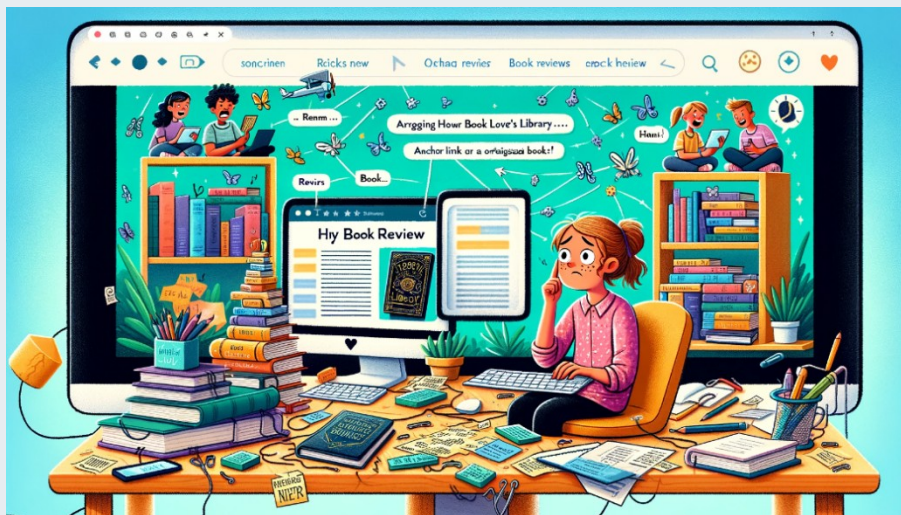

Grade: 7 & 8

Module: Web development

Lesson: 05

Homework

Emma loved reading and sharing her book reviews, but her Book Lover's Library webpage was hard to navigate. Visitors often struggled to find specific reviews among the scattered content. To help her visitors find specific reviews easily, she decided to create a book review section with anchor links for each book. Her friends appreciated how simple it was to explore her reviews now.

Now, it's your turn to create a book review section on your Book Lover's Library webpage with anchor links for each book!
